	DESCRIPTION						

NARRATIVE

I was driving on the HighWay from Hurontario to Brock Road in Pickering then from Brock Road to Dixon Rd - During that time a very heavy spray of what smelled like Aerosolozied Rat Poison was being sprayed from my vent into the cabin. This continued for 45 minutes non-stop despite me stopping for gas.

I am homeless and I sleep in my car; for the entire night until 9am July 30th, 2022 - I was being sprayed by the same Aerosolozied Rat Poison at a lower rate. I could not leave the car because I was super tired and felt like passing out. After I awoke, my brain felt sore and painful - the last time this happened I was hemmorging and blood came through my nose.

The night before this occured - I was trying to sleep and CSIS Contractors were driving by one after the next trying to crash into my car/ shining their high beams in my car to harass me non-stop. It was like they were on crack. It got so bad I had to call 911. Then it eased up a bit.

I had already written to CSIS Director regarding ongoing dangerous harassment - poisoning - targeting and serious injury from their contractors but he replied that "its not us" - There is also sexual assualts that I reported to the Police. If these attacks do not cease I will not survive. This, despite that I have done nothing wrong, nor am

I a Terrorist/Pedophile/criminal/spy or any other devient.
